EDUCATION

- Vidyalankar Institute of Technology (B.Tech in Computer Engineering) 2023-2027
Current GPA : 10/10
- Smt. Chandibai Himathmal Mansukhai College, Ulhasnagar (Junior College) 2021-2023
HSC : 86.67 %
- S.I.C.E.S English High School, Ambernath (Secondary School)
SSC : 91.20 %

SKILLS

- Programming Language :** Python , Java , JavaScript , C , Assembly language
- Web Technology :** HTML , CSS , React , node , Express , Flask , UI/UX , Figma , Wordpress, MERN stack
- DSA:** Solved 250+ Leetcode problems [.\(Profile\)](#).
- Databases:** SQL , MySQL , MongoDB
- Cloud Platforms :** Google Cloud Platform (GCP) , Microsoft Azure
- Tools & Software :** Vscode, GitHub, MySQL Workbench, Cursor, Autocad, DevC++
- Soft Skills :** Public Speaking, Team Coordination, Team Leadership
- Languages :** English , Marathi , Hindi

EXPERIENCE

- DeepCytes Cyber Labs [AI Analyst Intern]** **March-2026**
Building automation scripts to analyze cybersecurity data and detect potential threats ,to process data efficiently and improve analysis Enhanced system security by identifying risks and supporting better decision-making
- Meta Craftlab [Full stack Developer]** **JUNE-2024**
Developed a developer toolkit platform using SvelteKit and Tailwind CSS to streamline workflows and improve productivity. Helped in building and integrating multiple tools. Focused on performance, usability, and creating a smooth user experience.

PROJECTS

- College Complaint Management System** **APRIL-2026**
Built a Web based machine learning system to analyze complaints, automatically categorize and cluster similar issues with multilingual support, implementing dynamic urgency detection, category classification, and duplicate merging using semantic similarity techniques.
- SmartLoan-AI** **MAR-2026**
Developed an AI-driven fintech web application for credit scoring using a two-stage Neuro-Fuzzy system and neural network-based defaulter prediction, enabling explainable loan decisions and supporting bank managers with data-driven insights.
- AI Content Moderation** **OCT-2025**
Developed an AI-powered web application using React and Node.js that leverages NLP and a fine-tuned DistilBERT model to automatically detect and filter offensive or inappropriate content in real time.
