

RAJ PATKAR

AI/ML & Full Stack Developer

Email: raj5patkar@gmail.com — Phone: +91-8237398789 — Location: Mumbai

LinkedIn: raj-patkar-10413b2aa — GitHub: Raj-Patkar — Portfolio: Website

AI/ML and Full Stack Developer with experience building intelligent web applications and integrating machine learning solutions using Python, React, Next.js, FastAPI, TensorFlow, and PyTorch. Skilled in full-stack development, backend engineering, and deploying AI-powered applications, with a strong foundation in machine learning, computer vision, and NLP.

EDUCATION

Vidyalankar Institute of Technology	2023 – 2027
B.Tech in Computer Engineering	GPA: 10/10
Smt. Chandibai Himathmal Mansukhani College, Ulhasnagar	2021 – 2023
Higher Secondary Certificate (HSC)	86.67%

SKILLS

Programming Languages: JavaScript, Python, Java, C
Frontend: React.js, Next.js, HTML5, CSS3, Tailwind CSS
Backend: Node.js, Express.js, FastAPI, Flask, REST APIs
Databases: PostgreSQL, MongoDB, MySQL
Tools: Git, GitHub, Docker, Postman, Azure, GCP, AWS, VS Code
Working Knowledge: TypeScript, React Native, Redis, Linux, Distributed Systems
AI/ML: TensorFlow, PyTorch, NLP, Computer Vision, DistilBERT, Classification

EXPERIENCE

DeepCytes Cyber Labs — AI Analyst Intern	Mar 2026
Developed Python-based automation tools for cybersecurity data processing and reporting.	
- Automated analysis of cybersecurity data to identify potential threats and anomalies. - Debugged and optimized Python automation workflows, reducing manual effort and improving reporting efficiency.	
Collaborated with developers through code reviews and feature testing to improve software quality.	
Meta Craftlab — Summer Intern – Full Stack Development	Jun 2024
Participated in a summer internship focused on modern web development using SvelteKit and frontend technologies.	
- Learned SvelteKit fundamentals, component-based development, routing, and state management. - Contributed to a developer productivity platform by implementing the Sticky Notes tool using SvelteKit.	

PROJECTS

MedExplain AI	Jun 2026
Developed a full-stack healthcare application for AI-powered medical report and chest X-ray analysis.	
- Built responsive healthcare dashboards using React.js and Next.js with REST API integration and secure authentication workflows. - Implemented a DenseNet121-based pneumonia detection model with Grad-CAM explainability.	
College Complaint Management System	Apr 2026
Built an AI-driven complaint management system to automate complaint classification and resolution workflows.	
- Reduced duplicate complaints by approximately 95% using semantic similarity clustering. - Implemented multilingual classification and urgency detection for intelligent complaint routing.	
SmartLoan AI	Mar 2026
Developed an AI-powered credit scoring system for explainable and data-driven loan decision-making.	
- Achieved approximately 93% prediction accuracy using Neuro-Fuzzy and Neural Network models. - Generated explainable risk insights to support lending and approval decisions.	

CERTIFICATIONS

- CDAC INDIA - Cloud Computing

EXTRACURRICULAR ACTIVITIES

- Content Creator (YouTube):** Created and managed educational content for 4 months.
- Media Core Member, GDG:** Event support and community outreach.
- Volunteer, Connect For NGO:** Contributed 45+ hours through teaching and community initiatives.
- Solved 340+ Data Structures and Algorithms problems on LeetCode.
